Established in 2011 in the Scottish Highlands, Glen Lyon roast up some of the world's finest beans.

Passionate about coffee, they source the season's finest beans from small farms, estates and cooperatives from more than 12 countries around the world and

work closely with the farmers who grow them. The coffee can be traced all the way back to the individual who grew it and the farmers are paid substantially above Fairtrade prices.

Square Roots brew Red Stag espresso. It is a dynamite blend of the season's finest beans carefully crafted into a bold, complex and supremely balanced cup. Its juicy mouthfeel, chocolatey notes and lovely lingering aftertaste makes this a brilliant coffee both as espresso and with milk. We hope you love it as much as we do!

## **Syrups**

Syrups can be added to our coffees for an additional charge of 50p per shot. Choose from hazelnut, caramel or vanilla.

We use whole milk and steam it to no more than 65° C to preserve the natural sweetness that milk has. Steaming to any higher a temperature will cause the proteins in the milk to break down leading to a loss in sweetness. Keeping the temperature in check produces a delicious, sweet and creamy coffee. If you would like your beverage hotter, please request at time of order.
